

target(s)

Current data suggests there are some teachers facilitating learning to ensure students are doing the cognitive lift. The optimal year is a tiered target: to have at least 65% of teachers facilitating thinking at deep levels. Therefore, my goal for this school year is to have at least 65% of teachers facilitating thinking at deep levels.

### Rationale for Target(s)

initial rigor work, observations, and first district learning walk using a tool that

The rationale for the target evolved from

The target (65% (80%) is appropriate, rigorous, and attainable because of the ongoing professional learning plan initiative that is focused on increasing the rigor of instruction. The target is attainable because of the ongoing professional learning plan initiative that is focused on increasing the rigor of instruction. In addition, in a snapshot indicated that 42% of teachers in the twelve classrooms visited were at the beginning of the year. All of the teachers were in classrooms that were in the beginning of the year.
